Re: *AT&T Corp. Petition for Declaratory Ruling Regarding Enhanced Prepaid Card Services*, WC Docket No. 03-133

Yesterday, David Dorman, Chairman of the Board and Chief Executive Officer of AT&T, spoke on the telephone with Commissioner Kathleen Abernathy and Commissioner Jonathan Adelstein to discuss issues related to the aforementioned proceeding. In particular, Mr. Dorman discussed the chronology of AT&T's Enhanced Prepaid Card service before the Commission, including the adjustments made to AT&T's Cost Allocation Manual to accommodate the introduction of that service in 1994. In addition, Mr. Dorman discussed AT&T's reasonable and continued reliance upon FCC precedent in concluding that its prepaid service was both an interstate and an information service. Finally, Mr. Dorman reiterated that applying a retroactive ruling on the issue would inhibit or forestall investment in these and other new information service technologies coming to market, including VoIP services. The arguments made during the discussion were consistent with those and other written submissions made by AT&T filed in this proceeding.

One electronic copy of this Notice is being submitted to the Secretary of the FCC in accordance with the Commission's rules.

Sincerely,

A handwritten signature in cursive script that reads "Robert W. Quinn, Jr.".
